

March 20, 2018

Dear Mr. Johnny Key,

Before I begin, I want to thank you for giving me your time, and reading what I have to say. I would also like to introduce myself, my name is Evelyn Perez-Garcia, 17 years old and I attend school at Hall High in the Little Rock School District. I am a member of Student Council, National Honors Society, AVID, VotA in Little Rock Trojan Pathway and I am the first state representative of Arkansas in the Be Strong + We Dine together program.

I am speaking to you on behalf of the Be Strong + We Dine together program. This is a program that focuses on the students safety. This program was created to prevent bullying and ~~suicide~~ suicide. It is my duty as a leader of Hall High to help those students who feel alone and/or left out. I would appreciate it if you could give me your advice on approaching a peer of mine to make them feel that safety that I am asked to give.

I would also like to reach out to you on a change that I feel should ~~be~~ be acknowledge here in the school districts of ~~Arkansas~~ Arkansas. I am sure you heard about the horrible school shooting across the nation over the past few years and especially ~~the~~ the ~~one~~ shooting that ~~happened~~ happened in Florida last month. It's been a bother to me that our school drills for shooters are not effectively protecting us, and I would like to talk about better ways that ~~we~~ we can use to prevent deaths for happening if ~~it~~ ~~happens~~ in the future.

~~Again~~. Again, thank you for your time, ~~and for reading my letter~~

Sincerely,

Evelyn Perez Garcia
